Test Data Sheet

System: Pallegama Stores — Supermarket POS and ERP System **Document:** 04 — Test Data **Version:** 1.0

Use **only** these products, customers and codes when you test. Every tester then gets the same results.

> **For the developer:** add all of this data to the **test system** before testing starts. Write the real barcodes and item codes in the empty boxes, and check the starting stock is exactly as written here.

1. Test products

No.	Product name	Item code	Barcode	Cost (Rs.)	Selling price (Rs.)	MRP (Rs.)	Starting stock	Used for
P1	TEST Sugar 1kg	_____	_____	180	200	210	50	Normal sale
